VITAMINS & MINERALS

APPLICATION

Suitable for all horses whose feed ration plan requires replenishment to meet specific nutritional needs.

- High bioavailability
- Palatable and easy to dose
- Sweetened exclusively with Swedish honey

Eclipse Biofarmab BioComplete is a comprehensive multivitamin and mineral supplement meticulously formulated to meet the primary nutritional needs of horses. It is suitable for all horses, especially when their diet requires supplementation to ensure complete nutritional intake.

Vitamins play a crucial role in a horse's health, as horses cannot naturally produce most vitamins. Each vitamin supports vital bodily processes, such as metabolism and energy production. For instance, vitamins C and E function as antioxidants, while B12 and folic acid are crucial for red blood cell formation. Both deficiencies and excesses in vitamin intake can lead to specific health issues.

Minerals are a group of elements essential for the body's biochemical processes and the functioning of various organs. They play key roles in the formation of the skeletal structure, the structure and functionality of muscles, joint function, and numerous other physiological processes. Typically, minerals are categorised into two main groups: macrominerals and microminerals, also known as trace elements. The macromineral group encompasses calcium, phosphorus, magnesium, sodium, potassium, and silicon. The micromineral group comprises iron, iodine, copper, manganese, zinc, and selenium.

Amino acids are the fundamental building blocks of proteins, which are essential for muscle growth and maintenance, as well as for a healthy skeleton. Proteins play a central role in many vital bodily processes, including cell repair, enzyme function, and immune system support.

BioComplete contains fermented yeast culture to enhance and improve nutrient absorption. It also includes Swedish honey as the only sweetener to enhance palatability.

Please note: This product does not contain calcium or phosphorus. Due to the significant variation of these minerals in base feeds, we recommend adding them separately.

FEEDING DIRECTIONS

Pony: 30 ml/day
Horse: 45 ml/day
Large-sized horse (weighing over 600kg): 60 ml/day

In case of intense physical exertion, increase the dosage by 15 ml/day.
Shake well before use.
Mix well in feed immediately before serving.

SIZES AVAILABLE

604038	1 l	= 22 days supply at 45 ml/day
603411	2.5 l	= 55 days supply at 45 ml/day
603412	5 l	= 110 days supply at 45 ml/day

SHELF LIFE

24 months.

COMPOSITION

Water, Fermented Yeast Culture, Honey, Citric Acid, Potassium Sorbate.

ADDITIVES

	1000 ml	45 ml
Vitamins:		
3a672a Vitamin A	500 000 IU	22 500 IU
E671 Vitamin D	75 000 IU	3 375 IU
3a700 Vitamin E	14 166 mg	637.47 mg
3a710 Vitamin K3	83 mg	3.735 mg
3a820 Vitamin B1	833 mg	37.485 mg
Vitamin B2	333 mg	14.985 mg
3a831 Vitamin B6	333 mg	14.985 mg
Vitamin B12	1333 µg	59.985 µg
3a316 Folic Acid	416 mg	18.72 mg
3a841 Calcium-D-pantothenate	1666 mg	74.97 mg
3a880 Biotin	16.5 mg	0.7425 mg
3a314 Niacin	1000 mg	45 mg
Trace Elements:		
Iron Sulfate	1333 mg	509.985 mg
3b201 Potassium Iodide	16.5 mg	0.7425 mg
Copper Sulfate	1166 mg	52.47 mg
Manganese Sulfate	3333 mg	149.985 mg
Zinc Sulfate	4166 mg	187.47 mg
3b810 Selenium (Organic Selenium)	5.8 mg	0.261 mg
Amino Acids:		
3.2.3 L-lysine (HCL)	8333 mg	374.985 mg
3c301 DL-methionine	6666 mg	299.97 mg

ANALYTICAL CONSTITUENTS

Water Content 83.5%, Sodium 9.4%, Crude Ash 3.83%, Crude Protein 2.56%,
Crude Fats and Crude Oil 0.74%, Crude Fibre 0.5%.
