

HOUSE DUST
ALLERGENS

ALLERGEN NEUTRALISING
SPRAY

ALLERGONE

dr baddaky
a nextmune company

Innovative solution for neutralisation of housedust allergens.

Reduces the exposure to housedust allergens, which helps to reduce the allergic symptoms.

ALLERGONE

DUAL MECHANISM OF ACTION

1

NEUTRALISES MAIN ALLERGENS OF HOUSE DUST

ALLERGONE spray contains an aqueous suspension of microcapsules. The core of microcapsules is filled with a mixture of substances affecting the chemical structure of allergen particles.

2

REDUCES THE RISK OF ALLERGEN EXPOSURE

ALLERGONE forms a polymer film that glues dust allergens in larger particles stopping them from floating in the air and allowing aggregated allergens to be removed easily with conventional cleaning.

APPLICATION SITES

Rug and carpets

Bedding

Mattresses

Upholstered furniture

Soft toys

Curtains

LONG-TERM EFFICACY

With innovative microcapsulation technology (Slow Release™ Technology):

- Long-term protection against house dust mites – 5 months after a single application
- Controlled release of the components provides increased safety standards – proven safety

HIGH EFFICIENCY

Packaging of 400 ml is enough to spray a surface of approximately 40m².

10 mattresses

EASY TO USE

Evenly covers large surfaces
Odorless and stain free formula
