

SALLI SOLO TILT

Salli Solo Tilt is a traditional saddle chair with an undivided seat and tilt adjustment.

Salli Solo Tilt is well suited for those who prefer a solid seat. Even though the healthiest option is always the two-part seat, the anatomically designed Salli Solo Tilt puts as little pressure as possible on the genital area, thus enabling a good position.

Recommended only for part-time use.

SEAT

- One-part seat with tilt adjustment
- 3 mm steel sheet seat plate
- Leather (has seams), artificial leather, ESD artificial leather or wool

GAS SPRINGS

	User height (cm)	Chair height Gas spring (mm, min-max)	Chair height Top & Bottom gas spring (mm, min-max)
Short	under 150	450-575	455-585
Medium	150-175	525-720	575-755
Long	over 165	610-855	615-875

Mini gas spring is available for special circumstances; use depends on the working height, not on the height of the user.

Note! If you are using industrial or inline castors, the chair is 35 mm higher than the measurements shown in the table.

TECHNICAL FEATURES

- Weight 11.1 kg
- Height control by hand as a standard; Top & Bottom (foot height control) available

SEAT COVERS

Salli Solo Tilt is available ESD protected. Salli Solo Tilt ESD comes with an antistatic upholstery, a zinc electroplated seat frame, and Ø 65 mm ESD castors.

ACCESSORIES

Suitable For **Salli Solo Tilt**

ALLROUND

Allround moves freely on all sides of the chair, and also around its own axis. Can be used as a support for either one arm or both arms. Ø 600 mm base recommended.

ELBOW REST

Comfortable and steady support for the forearms on the sides and in front. Relaxes the shoulders by carrying the weight of the arms. Good for any precise work. Simple height and distance adjustment (15 cm, 5 cm).

ELBOW REST 3D

Specially designed for surgeons. It moves smoothly from side to side and back and forth. Ideal when the user needs to move their forearms while doing something very precise.

ERGOREST

Movable forearm supports on the sides. Suits many types of work, moves very smoothly on a constant level around their pivot point. The comfortable support is 20 cm long. It moves 28 cm back and forth and 28 cm sideways.

STRETCHING SUPPORT

Stretching Support is meant for momentary stretching only. A backrest isn't needed, because in a balanced position the spine supports the upper body and the muscles can remain relaxed.

FOOT SUPPORT

A perfect accessory for high workstations to support the feet. Recommended for temporary use only. Ø 460 mm.

TOB & BOTTOM

Enables height adjustment without using the lever by hand. Recommended for hygienic environments, such as operating theatres and dental clinics.
