

ZZEN

ANXIOUS AND «HOT» HORSES

Description

Some horses are more sensitive than others to stress caused by training, competitions, transportation and changes of environment. These new situations may require additional nutritional support.

Purpose

Nutritional support for reducing stress reactions in horses. ZZEN can be used for starting, and also for horses that are anxious, "hot" or perturbed during training or competition periods, transport, changes of environment, etc.

Formula

The new ZZEN formula has been reinforced with tryptophan and vitamin B6, and still contains high concentrations of magnesium and vitamin B1, which nervous horses consume in greater amounts. The formula is completed with Ashwagandha.

Daily allowance

50 ml per day for 2 to 4 weeks, preferably at the start of the day. Shake well before use. Give ZZEN directly into the mouth or mixed in with feed.

Professional format

1 L bottle - (EAN 3515657978352). Sufficient for 20 days' use.

Composition per Litre

Additives:

- **2b Aromatic substances:** Ashwagandha (Withania - tincture) 103,800 mg, stevia extract (CoE 552) 3,000 mg, mint flavour 3,300 mg.
