

# **TRUSTED PREOPERATIVE HAIR REMOVAL.**

**SURGICAL CLIPPER**

Designed for Safety, Convenience and Efficiency in Preoperative Hair Removal

# Medline Clipper: Designed with Purpose

High-grade steel blades | Powerful motor | Extensive usability testing

## Designed for performance

- Nickel-metal hydride battery for longer continuous performance

## Designed for outcomes

- Water-resistant and therefore easy to disinfect

## Designed for clinicians

- 'Grip-like-a-pen' ergonomics for comfort and control
- Easy-on/easy-off disposable blades for single-patient use

## Designed for patients

- Single-patient-use disposable blades for sharpness and safety
- Moving blade kept away from patient's skin to reduce nicks and cuts
- Can be used wet or dry
- Effective on multiple hair types

## Designed for simplicity

- Simple, one-switch control
- Wall-mount or freestanding charging base

## Designed for versatility

- Disposable blades available for sensitive areas, general purpose and coarse hair types

## Additional features

Designed for a natural grip and optimal cutting angle

Easy-on/easy-off clipper head with alignment marks for secure attachment

Works wet or dry for simple cleaning, disinfection and use

# Designed for Value

The switch to Medline's Surgical Clipper can be more economical than you'd imagine, whether you're using a competitor's clipper or a traditional razor.
