

# BONUTRON START

GROWTH AND VITALITY FOR THE VERY YOUNG FOAL

## ■ Description

Newborn foals are fragile and their development is far from complete. Breeding professionals must therefore ensure they receive good nutritional support during their first days of life, for a head start to their champion's career!

## ■ Purpose

BONUTRON START has been formulated by AUDEVARD Laboratories to provide additional nutrition to newborn foals, whose development and digestive balance must be closely monitored.

## ■ Formula

With 17 nutrients, BONUTRON START is the ideal formula for supporting young foals in their first weeks of life. This unique formula contains vitamins A and D3, plus high concentrations of copper and zinc, rounded off with plants.

## ■ Our advice

BONUTRON START provides minerals, vitamins and amino acids to boost bone growth. Recommend it for foals with fragile limbs.

## ■ Daily allowance

Put a full syringe into the foal's mouth from birth. Give 3 syringes the first week (D1, D3 and D7). If required, give one syringe per week during 2 months. For reluctant foals, BONUTRON START, thanks to its gel texture, can be applied to the mare's teats.

## ■ Professional format

15 ml syringe - (EAN 3401145259006).  
Pack of 3 syringes - (EAN 3515656226225).

### Composition per Litre

#### Additive (per liter):

- **Aromatic 2b Substances:** Mint (*Mentha piperata* - HE) 10,000 mg, apple flavor 5100 mg.
- **3a-Vitamins, pro-vitamins and substances with similar effects:** 3a672c Vitamin A 7,000,000 IU; 3a671 Vitamin D3 400,000 IU; 3a890 choline 7745 mg; 3a315 vitamin B3 11,000 mg; 3a700 vitamin E 10,000 mg; 3a841 pantothenic acid (vitamin B5) 5,500 mg; vitamin B2 4500 mg; 3a820 vitamin B1 3500 mg; 3a300 vitamin C 2,200 mg; 3a831 vitamin B6 1,100 mg; vitamin B12 11 mg.
- **3b-Trace elements:** 3b605 Zinc sulfate monohydrate 2522 mg; E1 iron 2,200 mg; E4 copper 950 mg; E8 selenium 16,65 mg.
- **3c-amino acids, their salts and analogues:** 3c23 L-lysine monohydrochloride 33 000 mg; 3c301 DL-methionine 22,000 mg.
- **Technological additives:** E310 Propyl gallate 60 mg, E320 BHA 30 mg

#### Raw materials:

Propylene Glycol, Sorbitol, Brewer's yeast, Sugar cane molasses, Sodium salt of organic acids (sodium benzoate).

#### Analytical constituents:

Humidity 71.3%, crude protein 9.1%, crude fat 2.4%, crude ash 1.7%, sodium 0.1%

This product belongs to the complementary feed for horses category.
