

EKYFLEX OSTEO

BONE SUPPORT

Description

Bone anomalies are common in both growing and sport horses: they range from growth problems to stress fractures and bone diseases, and require specific nutritional support.

Purpose

EKYFLEX OSTEO is a mineral feed formulated by AUDEVARD Laboratories. It is designed to provide nutritional support for the horse's bones.

Formula

The unique EKYFLEX OSTEO formula combines key bone nutrients (algae-based calcium, vitamin D3, copper, chelated zinc and magnesium) selected for their high quality, along with omega-3 fatty acids (DHA).

Our advice

Whether you're a trainer or breeder, ensure that your horse is getting all the essential nutrients to build bone structure, and plan ahead for critical growth phases and training. Using EKYFLEX OSTEO regularly is a good investment into your youngster's future career.

Daily allowance

1 measure = 50 g.

- Adult horses: 1 measure, once a day.
- Foals and ponies: 1 half measure, once a day.

The dose can be doubled on the advice of your veterinarian.

Available Format

1.5 kg box - (EAN 3515650470006). Sufficient for one month's use in adult horses.

New formula
Enhanced palatability
and enriched in calcium

BONES

Composition for 1 kg

Additives:

- **3a- Vitamins, provitamins and substances with similar effect:** 3a671 vitamin D3 10,000 IU, 3a710 vitamin K3 250 mg.
- **3b- Trace elements:** zinc (3b607 chelate) 6,900 mg, copper (3b413 chelate) 1,800 mg.
- **1a- Preservatives:** 1a327 calcium lactate 10,000 mg.
- **2b- Aromatic substances:** apple-vanilla aroma 5,000 mg.

Raw materials:

Lithothamnion, alfalfa, potato protein, brewer's yeast (*Saccharomyces cerevisiae*), carob, magnesium hydroxide, micro-algae (DHA docosahexaenoic acid ≥18%), fenugreek, sodium zeolite.

Analytical constituents:

Humidity < 10%, crude protein 18%, crude ash 52%, calcium 17%, sodium 0.1%.
