

CAPSIBLIST

HEATING GEL

■ Description

Applying heat locally to healthy tissue encourages restructuring deep down.

■ Purpose

Formulated by AUDEVARD Laboratories, CAPSIBLIST is a warming gel. It is designed for local application, in particular to tendons and joints.

■ Formula

The CAPSIBLIST formula contains extract of capsicum, a plant rich in capsaicin, which creates heat locally without any abrasive effect on tissue.

■ Our advice

CAPSIBLIST contains capsaicin. After application of the product, wait at least six days before entering any competitions. Wear gloves during application to protect hands from the warming effect.

■ Instructions for use

External use. Rub into the concerned area, two to three times per day. Handle with care. Avoid contact with mucous membranes, especially the eyes. Gloves must be worn when handling the product. If gloves were not worn, wash hands thoroughly after using the product.

This formula contains capsaicin, ask for advice concerning use in competition.

■ Professional format

250 ml tube - (EAN 3401197017500).

Composition per litre

Capsicum extract 5 % (pure capsaicin 0.025 %), methyl nicotinate 2 %.

This product belongs to the hygiene product for horses category.
